MARCOS BESSA - MODEL DESIGNER

New elements

We knew how iconic Ollivanders™ is in the Harry Potter storyline, so we developed a brand-new LEGO element especially for this set: a little case for LEGO wands. There are ten of them in the model.

What I'm most proud of

I love how faithful the final design is to the architectural details in the films. You can barely see some of these buildings zooming past your screen, but we tracked down different photographs from the sets – some of them from nearly 20 years ago – to make sure everything is spot on.

Big set, big fan

As creative lead for LEGO® Harry Potter™, I don't design a lot of sets directly. Being the model designer for this model gave me the opportunity to go back to my roots as a designer. And it's Diagon Alley™! I'm a huge Harry Potter fan, and every fan has dreamed of walking through it one day. It's also the biggest LEGO set I've designed so far.

My Hogwarts™ House

I asked the Sorting Hat™ to put me in Gryffindor™, but I turned out to be a Ravenclaw™. And I've embraced it!

DJORDJE DJORDJEVIC - GRAPHIC DESIGNER

My favourite part

Working on Weasley's Wizard Wheezes, because of the sheer amount of wackiness inside that shop. Making the little packages for things like Dungbombs or Puking Pastilles – that was the most fun I had working with the interiors.

My biggest challenge

We started off with only four shops, and through the process of discussing the scenes and locations we agreed to scale down the buildings in order to add more locations to the set. That process of expanding the set while keeping the original amount of details is what I'm most proud of. It was a beautiful process of collaboration. Similarly, we ended up with way more characters than we intended to initially, which is great for the fans.

My Hogwarts House

I'm definitely a Gryffindor.
